David Frank is president of the American Institute for Cleaning Sciences (AICS), an independent third-party accreditation organization that establishes standards to improve the professional performance of the cleaning industry. With more than 30 years of experience, David is the leading authority in the industry, serving facility service providers, distributors and manufacturers.

David travels the globe lecturing on the values of hygiene, image enhancement and sanitation. He is an active member and frequent speaker for ISSA, APPA, EPA and the U.S. Green Building Council. David has served on many industry committees to develop standards for healthy building designs, environmental sustainability and quality management systems. He has designed educational programs to promote occupational development and best practices for the foremost companies in the cleaning industry.

The American Institute for Cleaning Sciences and ISSA administered the first Cleaning Industry Management Standards (CIMS) and certification program offered for all levels of the cleaning industry. The CIMS certification program is an opportunity for all members of the industry to achieve an unprecedented level of professionalism and excellence.
