**Ionized Water: Cleaning without chemicals**

Presented by:  
  
**Dominion**  
 Equipment & Chemical  
 ISO 9001 Registered

*Red, White & Green*

**Introducing the Activeion™ Pro:**

The only hand-held cleaner that uses ionized water technology to clean, making it the safest option for cleaning.

**activeion™**

**Water electrolysis occurs in two forms: dual-stream and, more recently, blended-stream.**

**activeion™**

**“Dual-Stream” Activated Water is Popular**

- Asia--\$40 Billion+  
Haier, Sanyo, Hoshizaki  
Clothes washing, air purification, food processing and prep
- Europe--\$20 Million+  
Aquistel, Envirollyte, Biostel  
Medical, Disinfecting/Sanitizing, Food, Disease Control
- U.S.--\$20 Million+  
Electrolyzer, EAU Tech, Proton Labs, PuriCore  
Food, Wine, Medical

**Haier SANYO AQUASTEL®**

**Biostel® PuriCore®**  
Pure Science. Pure Life.

**activeion™**

**The \$64 Billion Question (adjusted for inflation):**

**How does Activeion transform water into a cleaning agent?**

**activeion™**

**Tapping Water's Power: It's Called Water Electrolysis**

**CHARGING ⇒ TRANSFORMING ⇒ CLEANING**

**activeion™**

**1**  
SURFACE ILLUSION → REDUCED SURFACE ILLUSION

**2**  
DIRT → CHARGED DIRT

**3**  
SUSPENDED DIRT

REDUCING ⇒ CHANGING ⇒ SUSPENDING

Water electrolysis can transform water into a cleaner using electricity instead of chemicals.

**ACTIVEION PRO** 12" High-Graft Automatic Cleaner  
CONSTRUCTION: Polycarbonate and ABS  
WATER ACTIVATION: ELECTROLYSIS (Activated Stream Water Electrolysis)  
APPROVALS: ETL, FCC, NSF, CE, CSA, UL758  
NEEDS: None Needed  
INCLUDED: 12" Water Battery Charger  
REQUIREMENTS: One Year Plug and Labor  
CONTENTS: Flexible Circuit Board and Microprocessor  
POWER: Two (2) AAAA Rechargeable Battery Pairs  
RESERVOIR SIZE: 6.6 Liter (1.7 Gallon)  
PUMP: 12V Diaphragm  
SPRAY NOZZLE: Brass  
CAP: Latex-Resistant, High Impact

A closer look at the Activeion Pro.

**actveion** CHEMICAL CLEANERS

SAFER EMPLOYEES

GREENER ENVIRONMENTS

GREATER SIMPLICITY

HEALTHIER SPACES

BRIGHTER FUTURE

This transformation frees you, your customers, and the environment from the impact of chemicals.

**5 Key Benefits of using the Activeion Pro**

- Safer employees.** The Activeion Pro is the safest option for cleaning professionals because it eliminates serious health risks stemming from the touching, breathing or accidental splashing of toxic cleaning chemicals.
- Healthier spaces.** The Activeion Pro is an NSF-certified safe choice for cleaning any space where the risks from chemical contamination must be managed including cleaning around people in food courts, patients in hospitals and children in schools.
- Green environments.** The Activeion Pro helps sustain greener environments by reducing the resources required to manufacture, package and ship harmful chemicals and by decreasing the disposal of toxins into the environment.
- Greater simplicity.** Since the Activeion Pro activates regular tap water, the time cleaning professionals spend mixing, filling, and disposing of dangerous chemicals is dramatically diminished.
- Increased savings.** The Activeion Pro, which can replace many common general-purpose cleaners, reduces the time and expense of ordering, receiving, and stocking an array of cleaners and shrinks the cost of insuring and disposing of chemicals.

One Activeion Pro can replace up to 47 of the most common, daily-use cleaning chemicals.

**Availability?**  
Take advantage of the 30-day, money-back guarantee.

Set up field testing at your location for 30 days with no risk.
